

## New Member Application Information

Thank you for your interest in joining the Village Garden Club of La Jolla! We are proud of our traditions and activities that include service to the community, conservations projects, garden tours, workshops and field trips. Our monthly meetings are wonderful social gatherings that feature display tables, refreshments, and superb educational programs.

Our members are the central reason our club has flourished for 50 years and we welcome new members and their energy! We encourage you to visit the club as a guest of a member and take a look at our website [www.vgclj.com](http://www.vgclj.com) to learn more about our club.

Active members of the club are expected to participate, support and contribute to club activities. They must attend a minimum of five meetings each year. In addition, they are expected to participate on a minimum of one committee or project and provide refreshments several times. We find that the members who most enjoy the club are actively involved!

Currently, our club caps its membership at 320 members. Our membership renewal process for current members ends May 1st. At that time, we are able to calculate how many membership places are available and offer new memberships to our applicants. Should we have more new applicants than spaces, we use a lottery system to select new members from all the applicants who have completed the New Member Application form.

If you wish to join the applicant list, please complete the following online form found here:
